

Perspex® Cast Acrylic Sheet Transparent Colours & Tints

Available in a wide range of thickness options

From subtle greys to vibrant reds, Perspex® Transparent Colours and Tints harness natural light to bring them to life. Perspex® Transparent Colours and Tints are used in a whole spectrum of applications from automotive and marine glazing to signage and displays, where colour and transparency are key to the design.

Automotive and marine glazing: the vast array of Perspex® Neutral tints lends itself perfectly to caravan windows, motorcycle windshields and for use in luxury yachts. Some of the main performance qualities include:

- Outstanding optical clarity
- Excellent UV and weather resistance
- Light weight
- Wide range of available neutral tints

Signage and displays: If you are looking to add the "wow-factor" to your designs, then the vibrancy of the Perspex® Transparent Colours and Tints range will do just that. And thanks to the versatility and quality of Perspex®, the only limitation will be your imagination!

- Vast range of available colours
- Ease of fabrication and installation
- Resistant to shocks, abrasions and scratches
- Easy to clean and repair

With all of this and more, it is no wonder that the design community has been specifying Perspex® colours for so long.
